A nice little resource management game with 50 levels.

It takes about 5-6 hours to complete the game.

Good casual fun with decent graphics.. Unique spin on Christmas, santa's cheery holiday torture chamber really adds to the cheer. Make sure to read all the happy letter to santa you find around the workshop, really brightens your spirits! I made a little video on it, I hope you love it <https://youtu.be/6jgnjkRwc9g>. this game is bad poor optimisation control are\u2665\u2665\u2665\u2665\u2665and its lowest game hat i ever own. Truly a fantastic game. The movement feels great. the levels are wide and varied and the music is wonderful (my favorites are 'Rubber Glop' and 'LED Lullaby'). Just straight-up fun to play. I wish more people were talking about this game. If you're a fan of precision platformers, this is a must-buy! :)

---- FINAL SCORE ----

9.75 out of 10

. This is pathetic. I bought this and I've played now for another 30+ hours and have yet to hear any new song I haven't heard before buying it. I'm not joking. I don't even know what I bought or what these songs are. The DLC is installed, added and nothing. It still just loops like 3-4 songs it always had. WTF is the point of adding a soundtrack that should had been included, and when you do... IT DOESNT EVEN PLAY THE MUSIC. Despite all the bad reviews of IR, I LOVE THIS GAME. So I thought it would be great to enhance it. Man was I wrong.

Pure trash... Not even worth 5\$.. Better than GTA, Forza, CS:GO,... Just the best game in the world. :D. Asteroids made love to Omega Race and had a miraculous VR baby called sphereFACE. One of the best VR experiences I've had. Criminally unknown because it's not aligned with a big name publisher. Must try this game if you're serious about VR gaming.. Insane mod for an insane game, this should have been in the base game!. I played the main game when it first came out and had a decent time with it, but it was riddled with bugs and had a lot of gameplay issues...I came back to the expansion pass a year and a half later and have been pleasantly surprised with the additional content. If you liked the base game, you'll like the expansion pass/missions.. I have 54 VR Games in my library this is 1 of the best along with Holodance It is also 1 of the most difficult after the first couple of stages HIGHLY HIGHLY recommended Great fun & really tries to align you with your own body .... Again Highly Highly recommended .... along with Holodance
